419. S. Alvarado St.
Los Angeles
Tuesday. Nov 27/17

Dear Mr Johnston

I have looked over some of your plants and critically enough to be quite certain but I shall give you my present findings. If when I go over them again I modify my opinion I shall let you know

1667. Galium multiflorum.
1591. " Stellatum I think but have nothing for comparison
1483. Galium. Can't place it at all but shall try it with the Oregon Flora
1680 Prunus emarginata var. mollis
Ceanothus oliganthus but pales below the usual
1423 Lotus Wrangelianus
1737 do
1278. L. argophyllus
1477. Streptanthus Heterandrus I suppose. It is a separate from S. Campestris
Arabis platysperma I have from Top of Baldy (Burke's collector) var.
1356. Arenaria douglasii var. Cotleyana
now macradenia.
Silene Lemmoni is S. Falmeri

of our Catalogue. & S recumda
is. S. platyota. of the Local List.
both are frequent in Mt Wilson
district.

Shall write you soon again
when I get leisure to look
the others over.

Yours sincerely

A D Anderson
